---

OK – I submitted requisition yesterday so will try to pull it back and change it. CB&I is through December – think it will be much longer than that?  
Still looking at IGCE --

**Subject:** CES: Period of Performance

JoAnn:

We need to discuss the amount to add to the Task Order. I would like to bump that to \$150K vs. \$100k (We may need to incrementally add funding until complete). Also, I am concerned about the closeout amount of about \$77k.

Another issue is the Period of Performance for this project vs. the End of the Contract. We are not sure that all of the waste will be incinerated and disposed prior to the end of the contract which mean we will still have vacuum boxes still at Veolia or at the cleaning facility and not released back to the vendor. We have no control over this. We need to talk.

Thanks
